

ALUMINUM TRAILERS

The American Standard in Aluminum Trailers

**ENCLOSED CARGO
& AUTO TRANSPORT**

**SUPERIOR QUALITY
YOU DESERVE IN:**

- DRY FREIGHT
 - SPORTS HAULERS
 - AUTO TRANSPORTS
 - RECREATIONAL TRAILERS
- AND MORE!**

**THE CLOSER YOU LOOK,
THE MORE YOU'LL
LIKE ALUM-LINE.**

When you choose ALUM-LINE, you are buying unmatched quality, strength, and lifelong value not found in other trailers. Don't be fooled by others that claim to be all-aluminum. You need to look deeper. ALUM-LINE is built with two separate mainframe extrusions – a roof rail to provide upper strength, and a bottom rail that builds a strong foundation for our tongue and groove aluminum flooring and vertical super-structure.

Our trailers are built for commercial use – you'll find more welding and workmanship in the details. We pride ourselves on the little things: stainless steel fasteners, overhead electrical wiring, quality built axles, tires, and a top notch light package.

ALUM-LINE – a safe and worry-free trailer you can buy with confidence.
