THE CLOSER YOU LOOK, THE MORE YOU’LL LIKE ALUM-LINE.

When you choose ALUM-LINE, you are buying unmatched quality, strength, and lifelong value not found in other fire and rescue truck bodies. Many custom extrusions and a proven design will give you a dependable and safe body for many, many years. With our years of experience we will build a body to fit your exact needs. From walk-in units, enclosed rescue, or combination brush and rescue bodies, we will build to fit your departments needs. We build for a lifetime of use – you’ll find more welding and workmanship in the details. We pride ourselves on the little things; stainless steel fasteners, enclosed electrical wiring, quality components, and a top notch light package.

ALUM-LINE – save and worry-free bodies you can buy with confidence.
